ABOUT US

The Journey to Rhino Bar

Founded in 1978, Rhino Bar began its journey with a vision to provide top-quality automotive accessories.

As demand quickly grew, Rhino Bar relocated to a larger facility on the East Rand Gauteng, where we continue to produce tow bars, roll bars and bush guards for a wide range of vehicles — nearly 50 years later.

In 2023, Rhino Bar expanded further with the opening of a factory in the Western Cape, located in Vredenburg. This new facility serves the entire Western Cape market, manufacturing and supplying our full product range.

For over 40 years, Rhino Bar has proudly been the trusted supplier of tow bars and bush guards to the Namibian market.

Our Quality Guarantee

- Rigorous testing and quality control processes guarantee that each product meets the highest industry standards.
- All our products are manufactured with ISO graded materials. All steel products carry a lifetime warranty against corrosion.
- Our products carry an unconditional guarantee and are covered by a liability all-risk insurance against workmanship and failure.
- Our Tow bars are SANS 1505-1-2007 approved.

PRODUCTS

A leader in towing technology, Rhino Bar has been at the forefront of the industry for almost 50 years. We are renowned for our premium-quality products, which include:

- Tow bars (available in fixed, swan-neck, detachable, and retractable tow ball options)
- Step Tube Bumpers
- Bush Guards / Bull Bars
- Nudge Bars
- Roll bars

All our products are proudly manufactured locally to fit a wide variety of motor vehicle makes and models.

Rhino Bar is a trusted **Original Equipment Manufacturer (OEM)**, partnering with several leading vehicle brands in South Africa, such as KIA, Hyundai, Subaru, Chery, LDV, Jetour, and Mazda.

With a focus on innovation and technology, we offer a wide range of products that incorporate the latest advancements in design, safety, and functionality.

ACCREDITATIONS & CERTIFICATES

Rhino Bar is proud to hold the following prestigious accreditations, demonstrating our dedication to quality and adherence to industry standards:

- **NRCS (National Regulator for Compulsory Specifications) Approval**

This accreditation confirms that our products undergo rigorous testing and inspection processes to guarantee reliability and compliance with South Africa's automotive safety regulations.

- **SANAS Certification**

The SANAS (South African National Accreditation System) Certification covers various aspects of our production process, from the materials used to the final product quality.

- **Airbag Compatibility**

This confirms that our bush guards are specifically designed to be fully compatible with vehicle airbag systems, ensuring that the vehicle's safety features remain intact during both installation and use.

- **BM Trada Certification**

BM TRADA is globally respected for its independent testing and certification services, particularly in the automotive and manufacturing sectors. Achieving BM Trada Certification means that Rhino Bar's tow bars, bumpers, and other vehicle accessories have undergone comprehensive testing and assessment to ensure they meet international quality and safety standards.

- **Warranty Guarantee**

Rhino Bar stands behind the quality and durability of our products with an extensive warranty guarantee, offering our customers peace of mind and confidence in their purchases.
